# NOT ALL THOSE WHO WANDER ARE LOST

— J.R.R. Tolkien

Chicago — a city of the people. Hardened by its weather and bonded by a common loyalty, an unstated union is upheld by the diverse citizens of this metropolis. Through the eyes of a street photographer, the city becomes a theater. Fascinating characters captured in portraits and snapshots depict frozen scenes from a story directed by life and fate. With every press of the shutter, the intention is to reveal potential in spotting artistry, even in the mundane. Sometimes poetic, others are as harsh as reality can be. Through it all, each exposure remains true, unposed, and unscripted. Take a walk with me, and let the breeze guide us through the City of Wind.

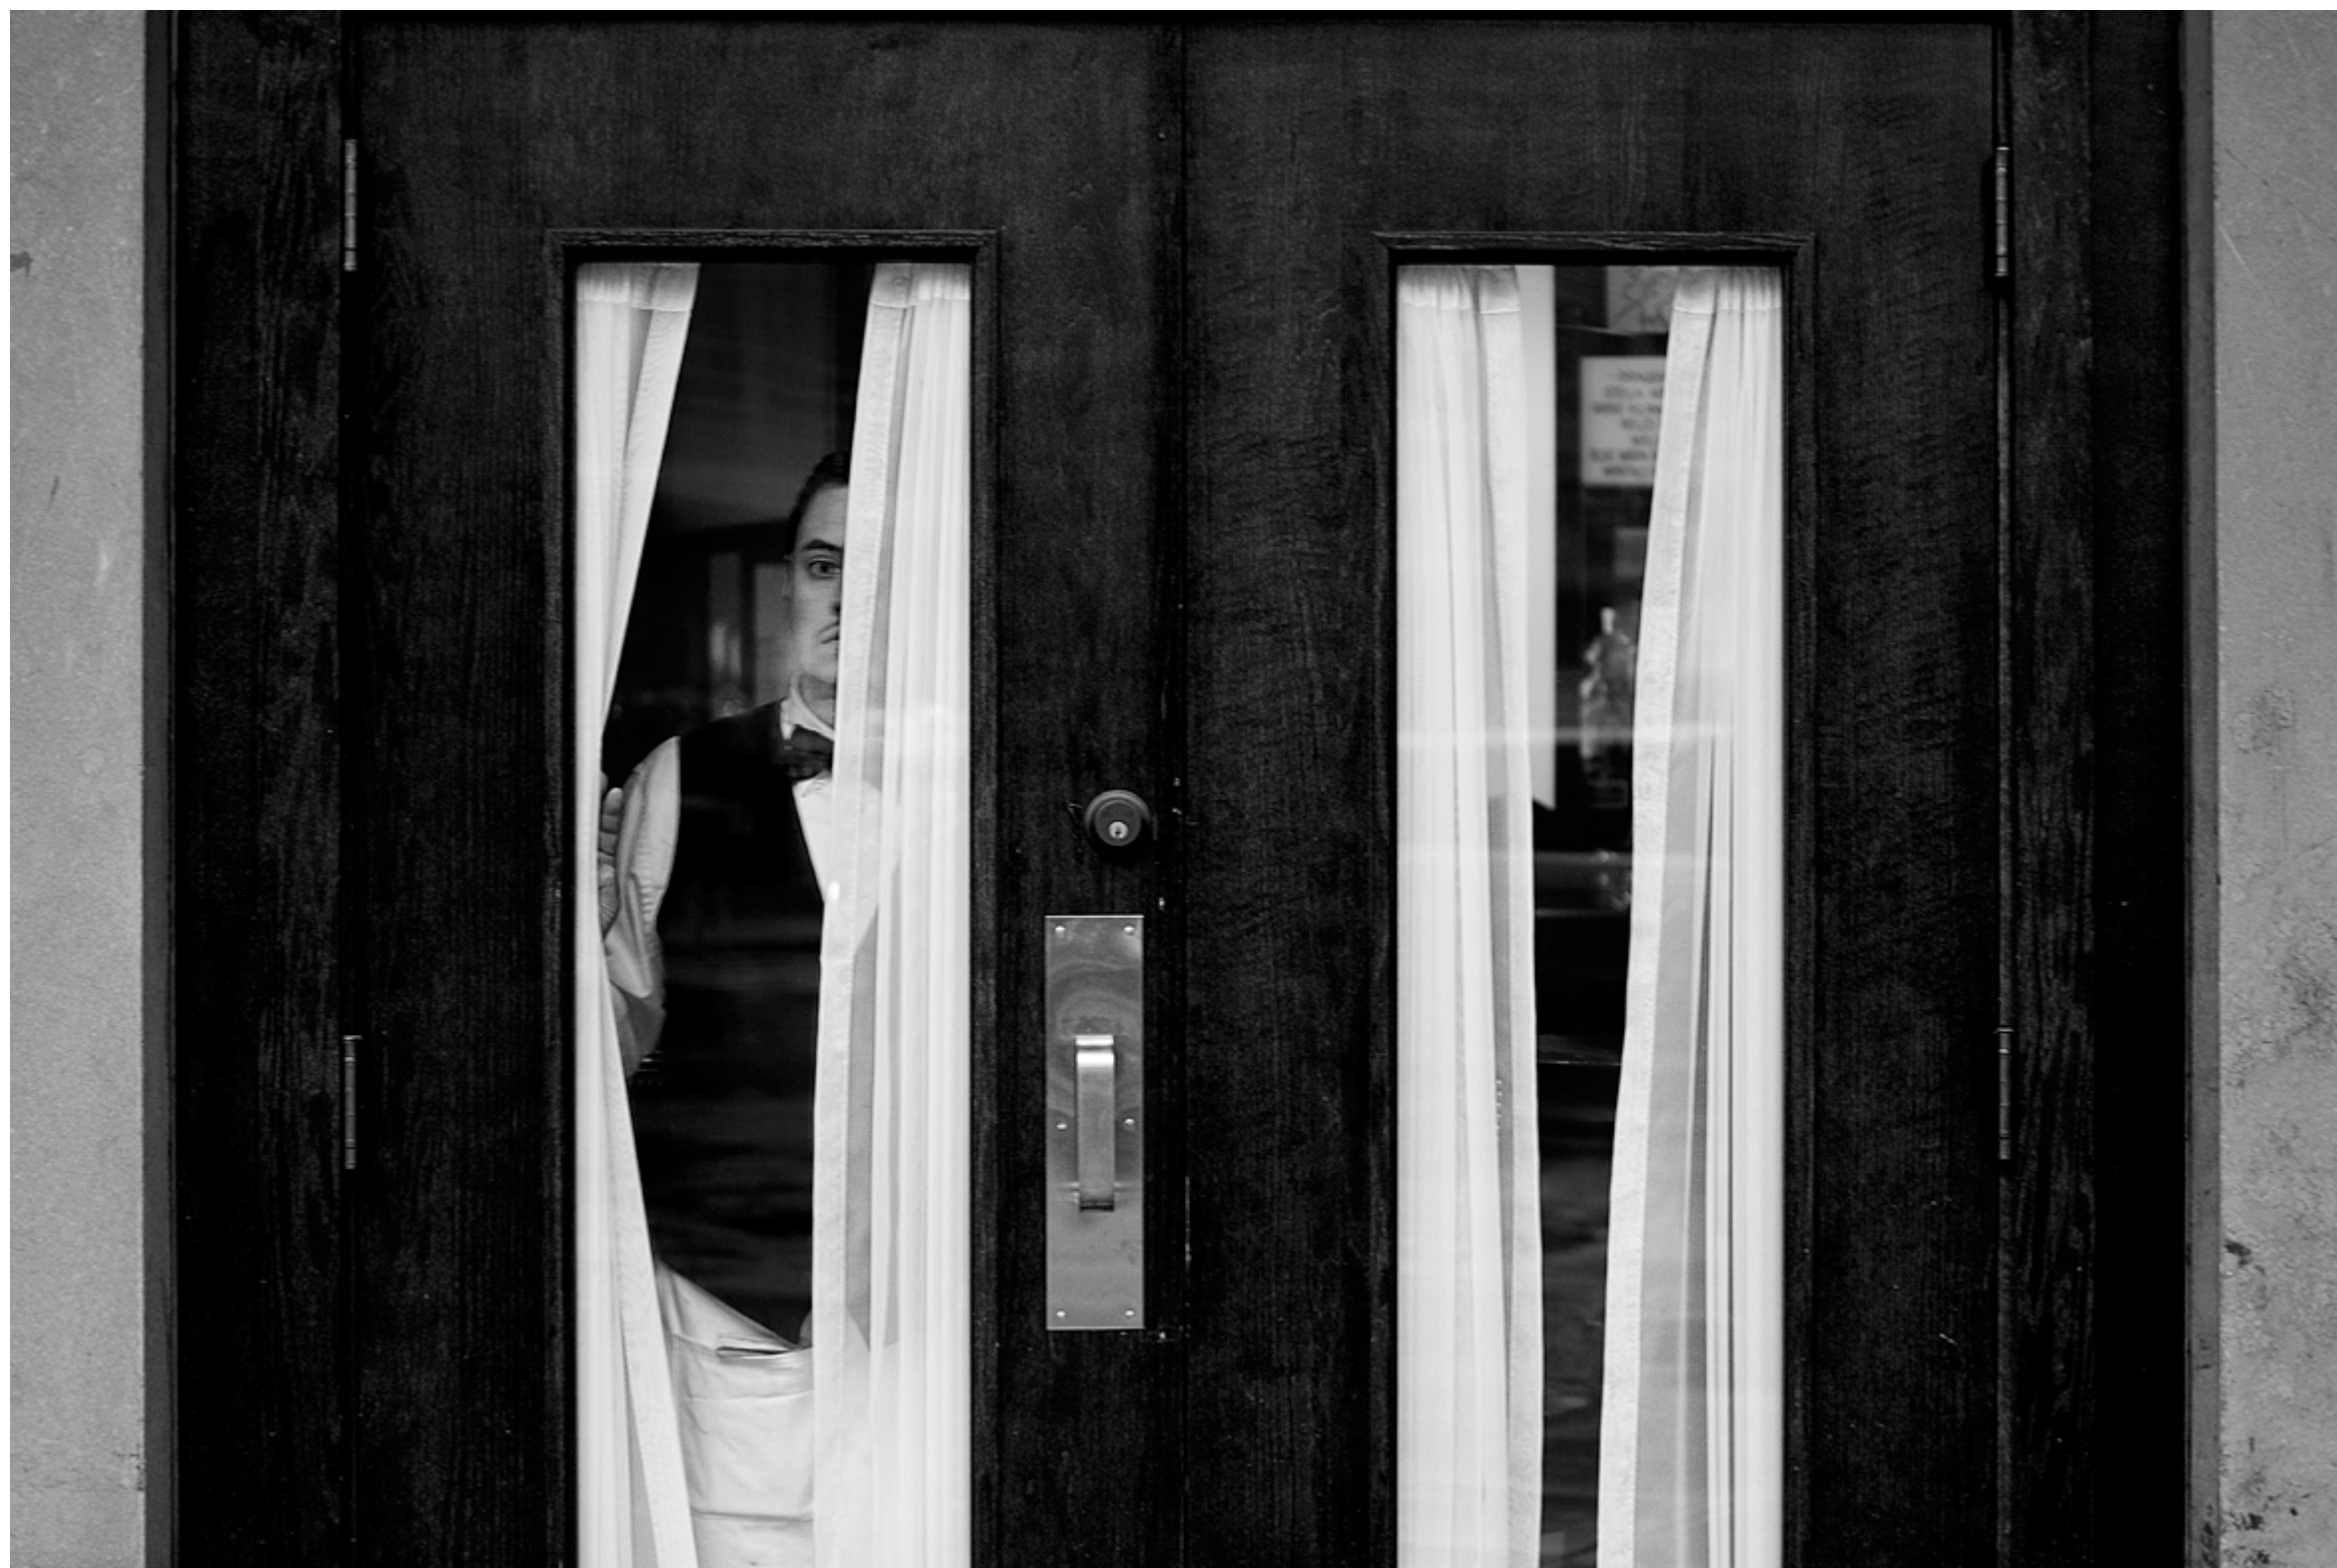

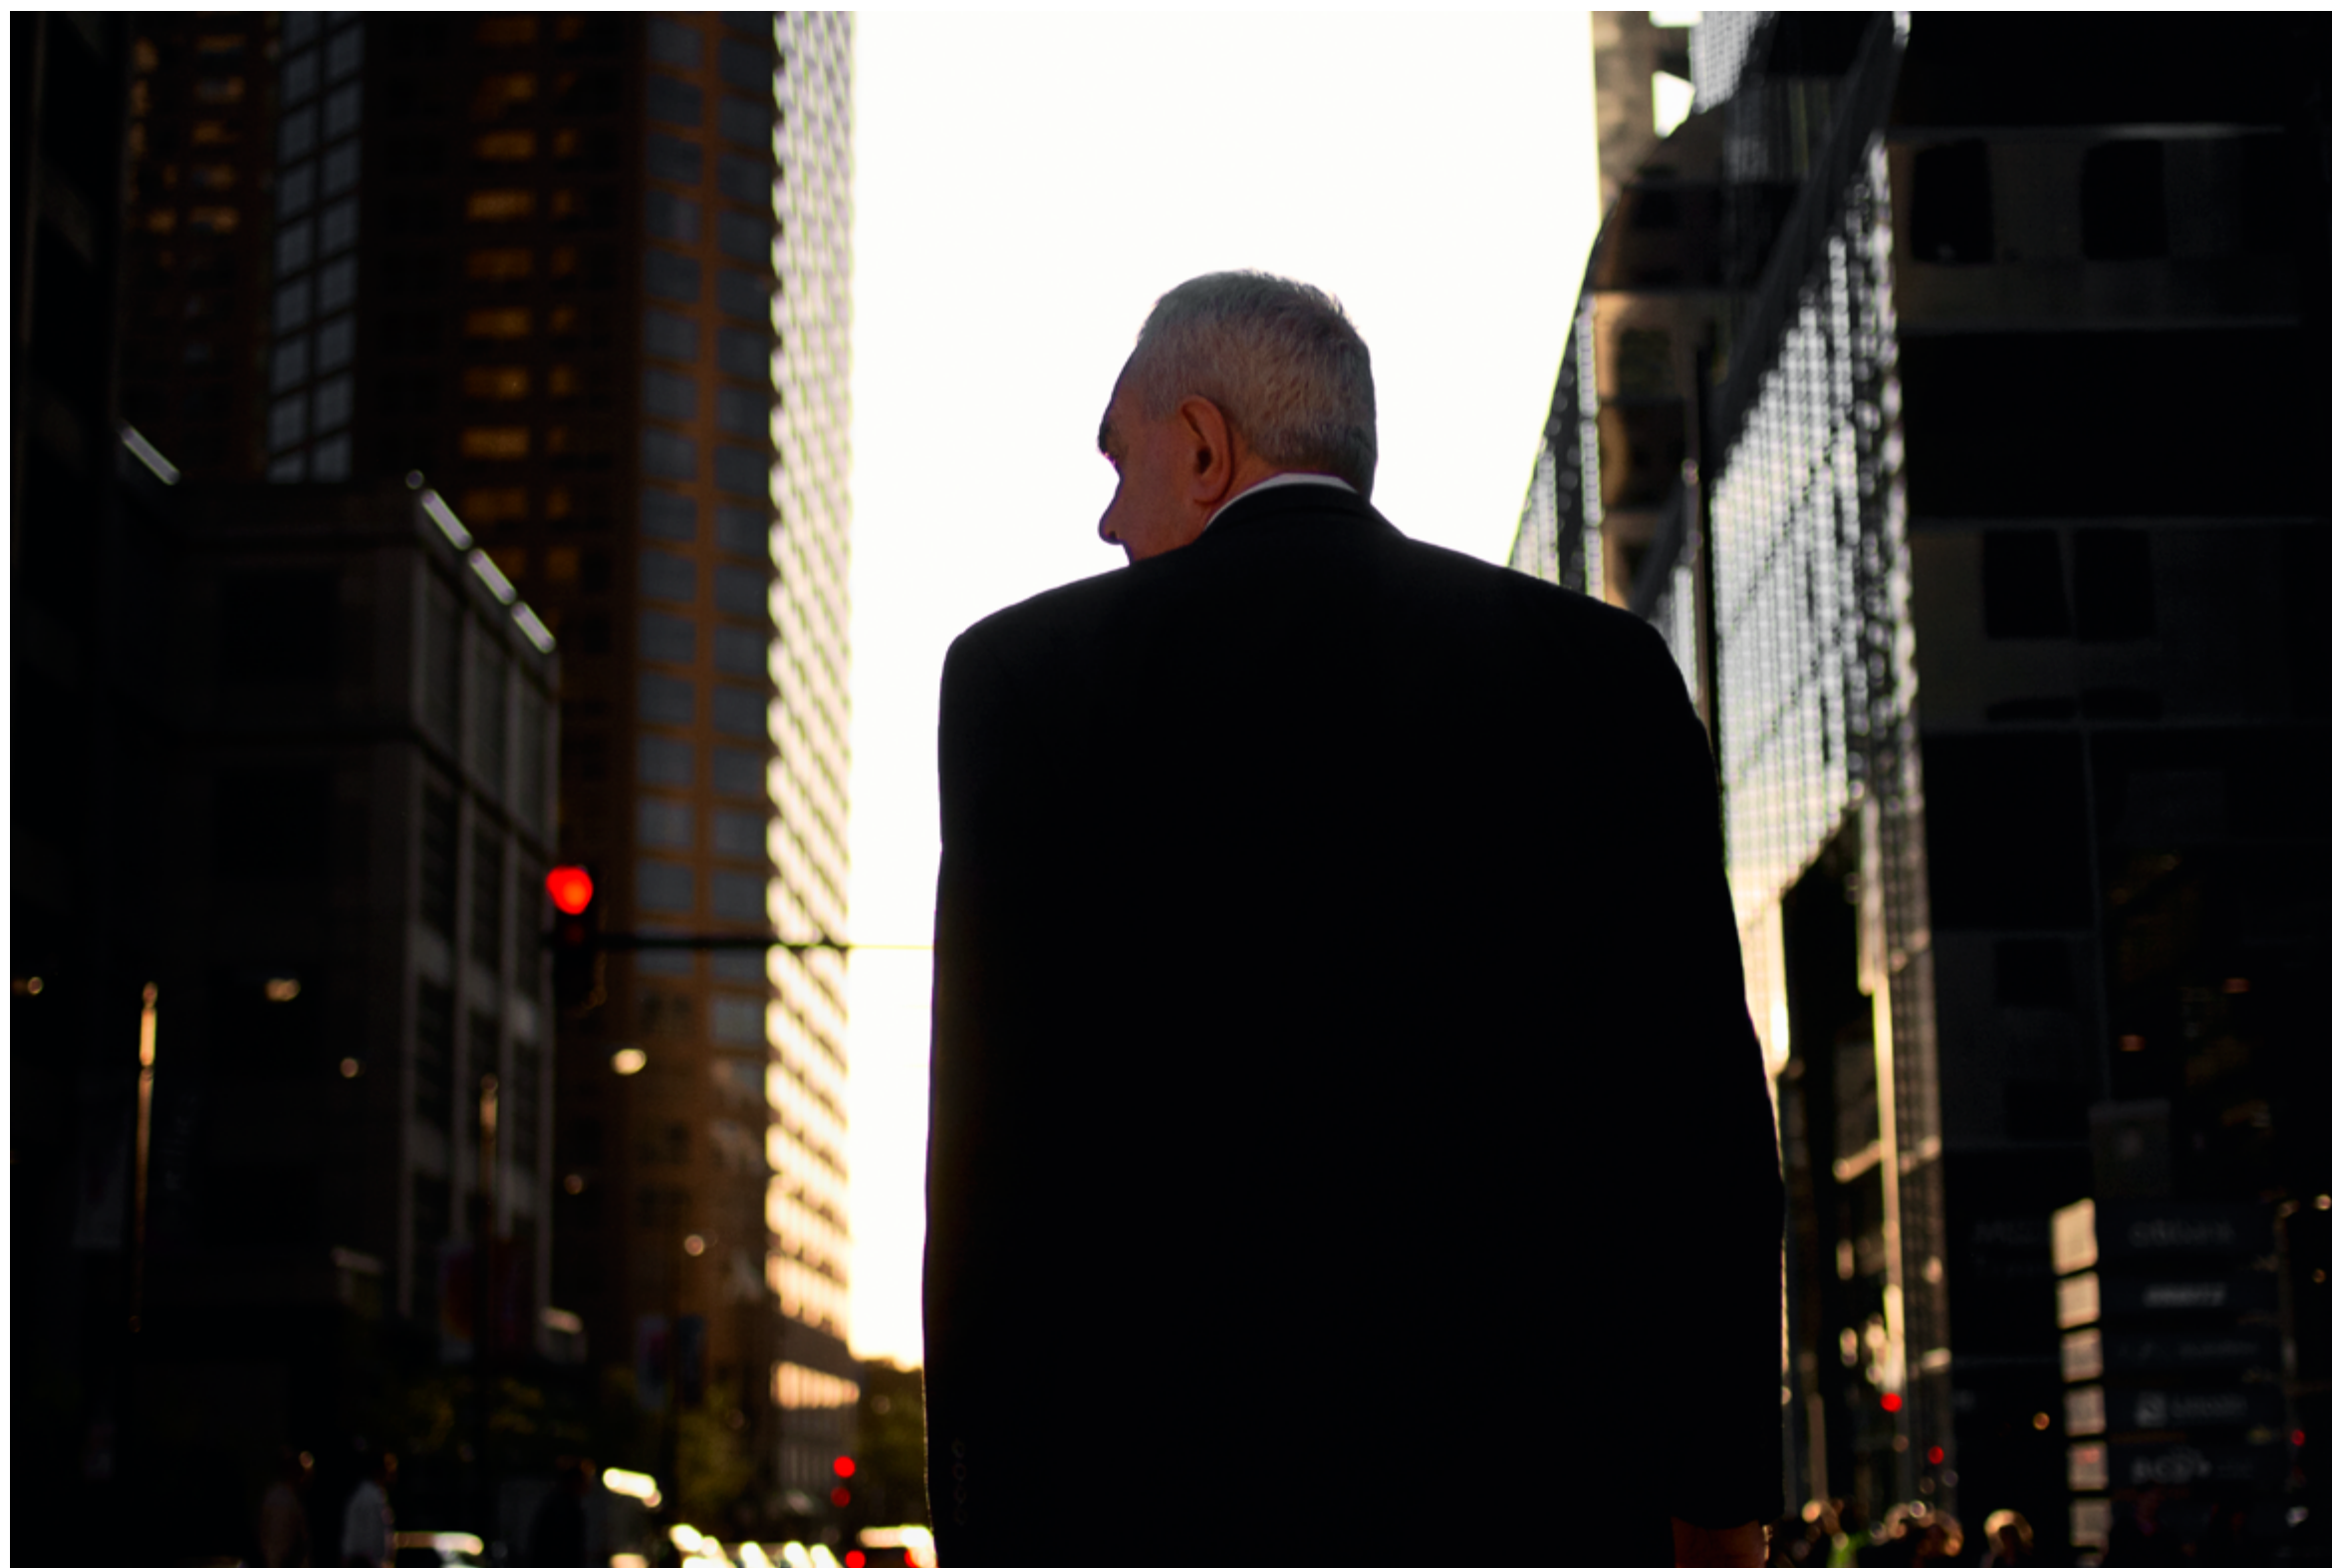

**A special thank you to the beautiful  
citizens of Chicago.**
